Surveillance Camera Registration

Do you currently utilize private video surveillance at your home or business? If you do, The Westwood Police Department would like to hear from you. Video surveillance is one of the best methods for apprehending criminals and convicting suspects who are caught in the act of committing a crime. Installing video surveillance is a great example of community-police partnerships and is something we highly value as a police agency serving our community.

The Westwood Police Department is committed to our partnership with the residents and business owners in our community. Many business owners and residents currently operate surveillance systems at their businesses and or homes. As crimes occur nearby, they are not always aware that their system may have captured pertinent information that could help facilitate our investigation, thus keeping our community safer. We ask residents and business owners across the borough to register their privately owned surveillance camera systems. As we investigate criminal incidents, we may be able to use the information or footage gathered from your system to assist in the apprehension and prosecution of the criminals involved. After registering your camera, you would only be contacted by the Westwood Police Department if there is a criminal incident in the vicinity of your security system. Police personnel, if necessary, may request to view your footage in order to assist in the investigation. Help us make Westwood an undesirable place for criminals to commit crimes and help keep your entire community safe!
